

SUMIT RAJBHAR

Mobile Developer | React Native & Full Stack Engineer

rajsumit0511@gmail.com | +91 6299133605 | Delhi, India | linkedin.com/in/sumit-rajbhar-069326258

PROFESSIONAL SUMMARY

Results-driven Mobile and Full Stack Developer with 2+ years of professional experience specializing in React Native, React.js, and full-stack JavaScript ecosystems. Proven track record of architecting, developing, and deploying cross-platform iOS and Android applications across FinTech, Healthcare, and AI domains, with hands-on experience publishing and managing releases on the Apple App Store and Google Play Store. Expert in optimizing application performance, integrating secure RESTful APIs, and implementing scalable state management solutions. Adept at collaborating in Agile/Scrum environments to deliver high-quality, user-centric software.

TECHNICAL SKILLS

Core Frameworks & Languages	React Native, React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
UI & Styling	Tailwind CSS, Material UI (MUI), Styled Components, NativeBase
Mobile Architecture & Features	iOS & Android App Development, Push Notifications, Firebase Cloud Messaging (FCM), Google Maps API, Deep Linking, React Navigation, Native Bridges
App Deployment & Distribution	Apple App Store, Google Play Store, App Store Connect, Google Play Console, TestFlight, App Release Management
State Management	Redux, Redux Toolkit, Context API
Backend & Databases	Node.js, Express.js, RESTful APIs, PostgreSQL, MongoDB, SQL, NoSQL
Cloud & Backend-as-a-Service	Firebase (Auth, Firestore, Analytics), Cloud Platforms
Tools & DevOps	Git, GitHub, Postman, Apidog, Azure DevOps, CI/CD Pipelines, Agile/Scrum
Testing & Debugging	Flipper, React Native Debugger, Chrome DevTools, Unit Testing, Reactotron
AI Tools	Claude, Cursor, Gemini, ChatGPT, Antigravity, Lovable, Co-pilot

PROFESSIONAL EXPERIENCE

Mobile & Fullstack Developer

January 2026 – Present

Bira Ventures Pvt. Ltd.

- Spearheaded the end-to-end development and lifecycle management of 4+ high-performance cross-platform iOS and Android applications using React Native and TypeScript, from architecture through internal testing and release readiness.
- Architected clean state management solutions by integrating 20+ secure REST APIs with Redux Toolkit, enhancing data synchronization and application security protocols.
- Engineered performance-tuning strategies that reduced screen load times by 30%, significantly improving user experience across low-to-high-end mobile devices.
- Collaborated within cross-functional Agile/Scrum teams across 2-week sprint cycles, participating in sprint planning, daily stand-ups, and retrospectives, contributing to the on-time delivery of 4+ iOS and Android application builds.

Software Engineer

June 2024 – December 2025

Csharpstek Pvt. Ltd.

- Engineered and deployed 5+ robust mobile and web applications for iOS and Android using React Native, React.js, and Node.js, tailored for complex Healthcare and FinTech domains.
- Redesigned intuitive UI/UX workflows and integrated 30+ RESTful APIs, driving a 25% increase in user engagement and significantly reducing navigation complexity.
- Architected core feature sets for AI-powered, service management, FinTech, and healthcare platforms while maintaining 100% compliance with strict data privacy regulations (e.g., HIPAA).

- Managed end-to-end Apple App Store and Google Play Store submission processes for mobile applications including Amalgamate and Companion Medical Scribe, including app signing, provisioning profiles, and release compliance checks, reducing average review-to-approval turnaround.
- Resolved 100+ critical bugs and proactively participated in peer code reviews, improving codebase stability and reducing production regressions by 20%.
- Delivered clean, high-quality code within rapid Agile/Scrum development cycles, cutting post-release bugs by 80% and authoring documentation that reduced onboarding time for new developers by 50%.

PROJECTS

Companion Medical Scribe – AI Mobile & Web App

URL - <https://app.companionscribeai.com>

React Native, React.js, Firebase, REST APIs

- Architected an AI-powered healthcare application for iOS, Android, and web, enabling real-time symptom assessment, medical guidance, and automated patient management workflows.
- Implemented secure Firebase Authentication alongside encrypted REST APIs to safeguard sensitive patient data across platforms.
- Successfully published the production application on the Apple App Store and Google Play Store, and developed responsive web dashboards for medical professionals.

Amalgamate – Mobile & Web App

URL - <https://amalgamate.ca/>

React Native, React.js, Node.js, PayPal API, REST APIs

- Developed a scalable, subscription-based social media ecosystem for iOS, Android, and Web featuring short-form video streaming, custom voting mechanics, and rich user engagement tools.
- Integrated facial authentication, government ID verification, and secure PayPal payout gateways for monetized user accounts.
- Managed iOS App Store and Google Play Store release cycles, including app store optimization (ASO) and compliance with platform submission guidelines.

Vehicle Tracking – Mobile App

React Native, Node.js, PostgreSQL, Google Maps API

- Built a comprehensive GPS-enabled vehicle tracking solution for iOS and Android featuring live location monitoring, geofencing, route history mapping, and fleet metrics.
- Optimized background location synchronization and live tracking APIs, reducing data update latency by 35%.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering <i>BNCET, Lucknow</i>	2024
Diploma – Mechanical Engineering <i>C.V. Raman College of Engineering, Bhubaneswar</i>	2021
Higher Secondary & Secondary Education <i>DAV Public School, Urimari, Hazaribagh</i>	2018

CORE COMPETENCIES

Advanced Problem-Solving & Debugging • Agile/Scrum Methodologies • iOS & Android App Store Deployment • Rapid Technology Adaptability • Cross-Functional Team Collaboration • Strong Technical Communication
